## UPGRADE SELECTION

<Upgrade for better performance>

If a customer has installed and experienced ES + PD,

Z + PD combination is recommended to improve braking performance.

When upgrading from ES + PD, Z & PD offers much more brake performance than ES & SD.

<Well balanced combination>

Slots on discs are often regarded as a cause of brake dust as it shaves brake pads surface,  
however brake dust is iron powder of brake discs.

M & SD is a well-balanced combination for more braking power, less brake dust.

## NEW TO RANGES.

We are proud to announce new to ranges.
