BMW M Team Studie leads the Super GT championship GT300 class.

After snatching P2 in the final lap of Round 4 Fuji, #7 BMW M4 GT3, equipped with DIXCEL brakes, carries the maximum “success” weight of 100kg. However, the BMW is strongly ranked at P1 before it travels to Sugo for Round 6. The extra 100kg on GT3 is a huge challenge for brakes but we do our best to support #7.

Super GT Round 6 will be held this weekend September 16 – 17.

We got you covered. New Prius pads and discs are available from DIXCEL.

From vintage cars in 60s to the latest models of 2023, we keep investigating the application for all kinds of cars. Toyota Prius is an iconic Hybrid car the first generation of which was developed 25 years ago. In 2023, the 5th generation model was released, and we already supply the brakes for the model.

DIXCEL proudly supports Formula SAE Japan

Formula SAE Japan (FSAEJ) is an event where college students design and manufacture their own formula cars. They compete by the points given to several aspects not only to the quickness of the cars but also to the concept, design, and cost involved in producing cars. DIXCEL sponsors the events and supplies brake components to several teams that would contribute to the car cultures and industry in the future.

NEW TO RANGES.

We are proud to announce new to ranges.
