## 誰でも分かるブレーキ講座 Brake tutorial course

DIXCEL Brake tutorial course, Vol.7 is about brake fluid.

Q.How long is the recommended brake fluid change cycle?

**A1.At the longest, once in 2 year.**

If you drive on only street, you can change it at once in 2 years.

But if you drive on winding roads or tracks, it is recommended to more frequently.

## Editor's note

In the Japanese market, car enthusiasts are switching to BMW, BENZ, and MINI. A roadblock to dealing with European car brake parts is “Electrical Parking Brake (EPB)”. EPB has become common these days, cars with EPB require a special device called a scan tool or service tool. However, even major parts shops in Japan like Autobacs Yellow-hat have not introduced these tools yet. As a result, new car dealers and a few stores with those tools have been dominating the demand. If there were some shops which have the tool, we believe it would be better to build a good business relationship with them.
