

DIXCEL NEWS December 2024

Race information ~Macau GP, Super-Taikyu~

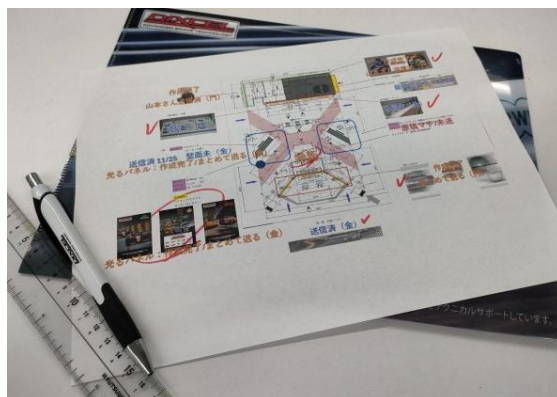

The 71st Macau Grand Prix (FIA FR World Cup) and Japanese Endurance Race Super-Taikyu in Fuji Speedway were held from Nov. 14th to 17th.

At the Macau GP, all 27 Formula machines were equipped with DIXCEL brakes. During the race, there were numerous accidents and yellow flags due to rain. The brakes were subjected to frequent heating and cooling, which creates unstable temperature conditions that are typically unsuitable for brake performance. Despite this, the DIXCEL brakes performed reliably.

In Japanese Endurance Race Super-Taikyu, DIXCEL supported eight teams, including cars such as the Honda CIVIC FL5 TCR, Mitsubishi Lancer EVO X, Nissan Fairlady Z Z34, and Mazda Demio DJ. Among these teams, the #97 CIVIC FL5, driven by Japanese F1 driver Shinji Nakano, won the race and secured the annual championship title. Additionally, the Demio DJ also claimed victory in both the race and the annual title. The fact that these competitive teams chose DIXCEL brakes demonstrates the reliability of our products.

Editor's note 🌲

The busy and exciting year of 2024 is coming to an end. How was your year? For me, I took on several new roles at DIXCEL and worked hard to meet the challenges. As personal news, my son has started elementary school. I hope your 2024 was a great one, and I wish you a happy New Year! (Junya Yasuda DIXCEL)
