GT World Challenge Asia and Japan Cup – Okayama Round

GT World Challenge Asia (GTWCA) and Japan Cup were held at Okayama International Circuit on August 29–30.

Each race lasts approximately one hour, combining the intense battles of sprint racing with the strategic elements of endurance racing. Featuring top drivers from Japan's leading racing categories, the series has been gaining increasing attention from fans in recent years.

DIXCEL has proudly supported the series as an official partner since 2017.

The Okayama round delivered plenty of drama.

In Race 1, a sudden rain shower made tire strategy a key factor in determining the outcome. In Race 2, a multi-car crash occurred shortly after the start, followed by another rain shower late in the race.

The battle for the lead continued all the way to the final corner, with the winner decided by just 0.089 seconds—an exciting finish that showcased the intensity of GTWCA racing.

Japan's "Silver Week" Holiday Notice

Japan will observe its "Silver Week" holiday period from **September 20 to 23**. During this period, DIXCEL will be closed and shipping operations may be affected.

If you have any urgent orders, please place them **before the holiday period** to avoid delays.

Fun fact : Japan's "Silver Week" gets its name from "Golden Week," the famous holiday period in May. While Silver Week doesn't occur every year, when the September holidays line up, it creates a rare extended break.

NEW TO RANGE

We've added many new part numbers for **LEXUS** brake pads and rotors.

If there are any other vehicle models you'd like to see available from DIXCEL, please let your sales representative know. We'd love to hear your requests!
